

# INVITATION

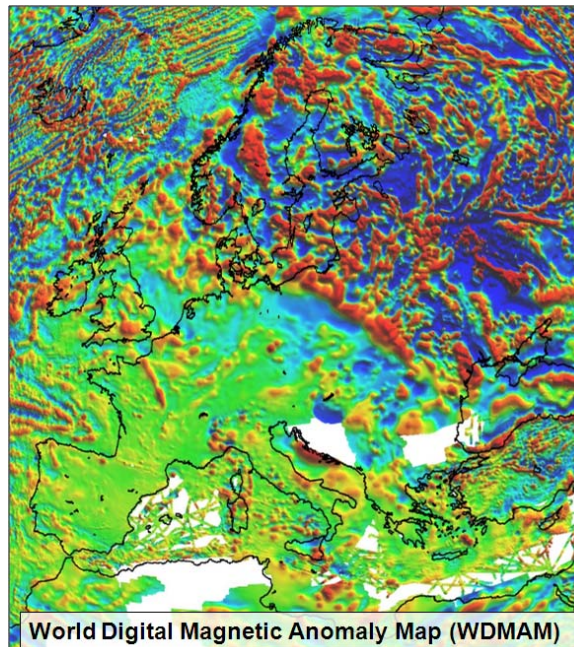

You are invited to attend a seminar to celebrate the signing of an Agreement between the Geological Survey of Ireland (GSI) and GETECH

## **PROFESSOR DEREK FAIRHEAD**

(Executive Chairman of GETECH Group plc – a spin out AIM company from the University of Leeds and Professor of Applied Geophysics at the University of Leeds)

will present a talk entitled

**“Continental Scale Gravity and Magnetic Compilations for mineral and oil exploration  
and  
Magnetic interpretation made easy: The Tilt-Depth-Dip-  $\Delta K$  method”**

**Tuesday 9<sup>th</sup> December, 2.30pm**  
Geological Survey of Ireland Lecture Theatre  
Beggars Bush, Haddington Road, Dublin 4.

Light refreshments will be served following the presentation.

The Agreement between the GSI and GETECH is allow GETECH to reprocess GSI owned digital aeromagnetic and marine magnetic data for Ireland. The Study Products will then be marketed by GETECH and income shared between the two organizations. The Study products will include: reprocessed data in the form of flight line profile and marine profile data for individual surveys; best resolution grids derived from the data using the reprocessed flight line profile and marine profile data for individual surveys; and integrated grid of the high resolution mining surveys. The Study is part of a larger project which will compile Aeromagnetic data for the larger Europe – Mediterranean – North African region.

**RSVP to Gerry Stanley via e-mail: [gerry.stanley@gsi.ie](mailto:gerry.stanley@gsi.ie)**
