

November 2009

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, metallurgical coal, zinc and energy.

Teck Ireland Ltd. is seeking to recruit a **Project Geologist** or **Senior Geologist** to work on their zinc-lead exploration program in Ireland.

The successful candidate will be responsible for the day to day running of exploration programs in Ireland and will report to the Irish exploration manager. Responsibilities will include; data interpretation and target generation, program planning and supervision, budgeting, data management, and internal and external reporting.

The ideal candidate will have +5 years experience in mineral exploration including experience of running exploration and drilling programs. The candidate will need to possess good communication skills and have the ability and motivation to make a discovery. Experience working on carbonate-hosted Irish-type Zn-Pb deposits would be an advantage but is not essential. Teck offers a competitive compensation package commensurate with experience.

Interested parties should contact Patrick Redmond, Manager, Exploration – Ireland, at the following email address; patrick.redmond@teck.com
